What is the Queue System?: Pg. 1 How to get ready & play your match: Pg. 1-3

What is the Queue System?

The Leaguespot Queue System is a stage type to ensure teams who are ready to play will be matched against an opponent who is also ready and queued. Teams queue 15 minutes before their scheduled game time and will be matched against an opponent at the end of the queue, when it's game time. This stage type helps match ready teams up against each other and reduce forfeits.

How to get ready & play your match

- Log in to your LeagueSpot account atleast 15 minutes before your scheduled game time. MNVL URL here: <u>https://mnvl.leaguespot.gg/league</u>
- 2. Click into the "My Seasons" page on your Leaguespot dashboard.

3. Click the blue "Join Round ___" button on the screen to enter yourself/team into the queue for that week. Every week, each team will need to queue into the Round being played, otherwise they will not be entered into the queue to play.
